I Want Some Of Your Photos! How Do I Place My Order?

Whether you want to purchase digital downloads or order actual prints, the process is very similar. Here's a step-by-step guide to ordering any of my pictures in the Gallery at <http://www.tmotleyphotography.com>

1. Create an account at tmotleyphotography.com if you haven't already. This isn't technically required but helps by saving your favorited photos on the website rather than on your computer. Additionally, I have access to your favorites list more readily.
2. Log in and go to the Gallery you want to view.
3. When viewing the photos, when you mouseover them, you should see a little heart pop up. If you want to favorite the photo, click the heart.
4. Continue browsing through the photos, favoriting the ones you might want.
5. When done, in the upper left corner, you should see My Selection (#) with # replaced with the number of photos you've favorited. Mouseover that and you should see Edit My Selection. Click Edit My Selection.
6. You can remove photos from your favorites to get down to a reasonable number at this stage. Once done, click Buy All if you want to purchase digital downloads. If you want to place a print order (or want to pay in person), click on Share Favorites. Share it with the photographer and put details in the message area.
7. During the checkout process, you can put in a coupon code. I have codes set up for bulk purchases that give you one free download for every 5 purchased downloads. You can view the coupon codes here: <http://www.tmotleyphotography.com/sports-photo-coupon-codes.pdf>
